## Languages

German - native

English - bilingual  
proficiency

Leo has a huge passion for computer science and economics, which is why he studies Information Systems and ambitiously works on personal projects in his free time like his website.

In order to put his insights into practice Leo started working at move e. V. and for Dr. Chasin at the chair of Information Systems, which fostered his analytical and conceptional abilities. Through the commitment of two jobs while studying, Leo displayed resilience and stamina.

In his projects at move he developed a strength in communication and teamwork because of the intense work in a group. From those projects and his course of study Leo acquired the skill of goal orientated work, great time management and precise project planning.

## Work History

2019-10 - **Student Assistant**  
Current - Chair Of Information Systems, Münster

I enthusiastically work as a student assistant for [Dr Chasin](#) for IT projects and research at Westphalian Wilhelms-University Münster, where I gained insights into modern technologies and pushed my limits.
